1. The amendment filed 11/16/05 has been entered and made record.

Claim rejections-35 USC § 101

2. U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

- 3.. Claims 20-21 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 20 is not statutory because there is evidence in specification (p. 15, lines 18-22) that the application ^{intends} ~~intends~~ the computer program product including a computer readable media to include signals. (AC)

As to claim 21 it is a system claim written in means plus function form. All of the means can be software. The claim encompasses software not ^{embodied} ~~embodies~~ on a tangible computer readable medium. (AK)
